

# Sliding Fee Discount Program

## What is a sliding fee?

The sliding fee program allows patients with no or inadequate insurance coverage to apply for a "sliding" or adjusted fee rate for care and services.

## How do I apply?

Our front office staff will help you with your application. Simply give us a call or ask our staff in person about how you can apply for a sliding fee discount, and our staff will walk you through the quick process. To finish the application, we will need proof of income from the most recent year, which can be collected from any of the following:

- 1040 tax form
- W2 tax form
- Government assistance statement (SSI, disability, unemployment) 4506T
- Letter of Support (completed by anyone with whom you live that provides shelter and food)

## How much will I owe?

The amount of the discount depends on your family size and income. You will be informed of all the charges at the time of service so you will be in control of your cost of care. We do require payment at the time of services.

## What if I still have questions?

We're happy to work with you to make sure you feel confident about the cost of your care! Please reach out to our front office staff with any additional questions.
